

SquashEZE 15 ton Rosin Press

Note: ALWAYS USE PARCHMENT PAPER TO ENSURE PLATES STAY CLEAN!!!

1. Make sure the power plug is well connected to the wall socket, then press the power switch to turn on.
2. Set the temperature and the time you want
3. When the temperature reaches the setting temperature, carefully place the material that is covered by parchment paper on the press bed.
4. Press up and down the press handle to get the pressure you need.
5. Start timer.
6. When the timer is up the buzzer will sound, rotate the release knob, the heating plate will fall down slowly.
7. Carefully remove parchment paper and collect rosin.
